

## **REMARKS**

### **Status of the claims**

Claims 1-11, 19, 22, and 23 are pending in the present application. Claims 1, 22, and 23 have been amended for the purposes of furthering prosecution. Applicants reserve the right to pursue the canceled subject matter of claims 1, 22, and 23 in a continuation application.

The Examiner is respectfully requested to withdraw the rejection and allow claims 1-11, 19, 22, and 23. In any event, the Examiner is requested to enter the above amendments for purposes of furthering prosecution. These amendments were not made earlier because Applicant earnestly believes that the specification is enabling for the breadth of the claims as originally drafted. Reconsideration and reexamination is respectfully requested in view of the following remarks.

### **The Rejections Under 35 U.S.C. § 112, First Paragraph, Should be Withdrawn**

#### *Enablement*

The Examiner rejected claims 1-11, 19 and 22-23 under 35 U.S.C. § 112, first paragraph, on the grounds that the specification does not enable one skilled in the art to make or use the invention. This rejection is respectfully traversed for the reasons of record, which will not be reiterated here. As stated in the response filed on May 4, 2007, Applicants respectfully submit that the specification is enabling for the full scope of claims 1-10 and 19-23. Nevertheless, to expedite prosecution, claims 1-11, 19 and 22-23 have been amended to recite a nucleic acid molecule comprising the nucleotide sequence of SEQ ID NO:1, 2, or 4, or a nucleotide sequence encoding SEQ ID NO:3 or 5. Thus, the rejection of the claims under 35 U.S.C. § 112, first paragraph, for lack of enablement should be withdrawn.

#### *Written Description*

Claims 1-11, 19, 22 and 23 were further rejected under 35 U.S.C. § 112, first paragraph, as failing to satisfy the written description requirement. The rejection is respectfully traversed for the reasons of record, which will not be reiterated here. As stated in the response filed on
